The Environmental Assessment Act, 1975

MGS-27

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that the undertakings, namely:

> The construction of the Ministry of Natural Resources Nipigon District Office, located on the south side of Highway 11/17, one mile west of the Town of Nipigon; and
>
> The construction of the Ministry of Natural Resources, Owen Sound District Office, located on the north side of Grey County Road #21, immediately east of the Dr. MacKinnon Phillips Hospital, in the Township of Sydenham.

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue expense required to prepare an Environmental Assessment for undertakings that will have no significant adverse effect on the environment, and that are needed by the Ministry of Natural Resources to carry out the consolidation of existing inadequate facilities into single District Offices, and

2. The public will be interfered with and damaged because the level of service available and the efficiency with which it is effected is diminished by the inadequacies of the existing facilities.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertakings being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertakings are exempt from the application of the Act for the following reasons:

1. The proposed undertakings replace facilities which are inadequate in terms of modern standards and are unable to accommodate the consolidation,
2. The proposed undertakings will not change the size of the two District operations. The proposals are in accordance with the existing zoning of the two sites which are compatible with the existing developments in the two
3. The Minister of Government Services has assured me that: in the case of the Nipigon District Office, the system for sanitary waste disposal and water supply at the proposed development will be designed to conform with the Ministry of the Environment's guidelines, and in the case of the Owen Sound District Office, the municipal services which exist at the edge of the site are sufficient to secure development of the project, and
4. The undertakings will have no significant adverse effect on the environment.

This exemption is subject to the following terms and conditions:

1. That an undertaking for which tenders for construction are not awarded by December 31, 1983, ceases to be exempt, and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for an undertaking, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situations under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 2nd day of May, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

> The construction of the Moosonee Consolidated Building, Phase I, on a site consisting of Lots 323, 324, 325, 335, 336 and 337 between Revillion and Ferguson Roads and Third and Fourth Streets, Townsite of Moosonee in the District of Cochrane;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue expense required to prepare an Environmental Assessment for an undertaking that will have no significant adverse effect on the environment,
2. The Ministries of Culture and Recreation, Natural Resources and Northern Affairs will be interfered with because they urgently require the undertaking so they can consolidate their existing inadequate and makeshift accommodations into single district offices possessing the facilities to allow them to operate in an efficient and effective manner, and
3. The public will be interfered with and damaged because the level of service available from the three client Ministries, the efficiency with which it is effected and the access to that service is diminished by the inadequacies of the existing accommodations.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking replaces the existing office facilities which consist of a residential house and the basements of two churches. The existing facilities are over-crowded and their separated locations are causing difficulties to the public seeking access to the Government. The Minister of Government Services has informed me that suitable alternative private accommodation within the area is not available because a commercial market for such accommodation does not exist;
2. The Minister of Government Services has assured me that the proposed undertaking is in accordance with the existing zoning of the site and that the municipal services which exist at the edge of the site are sufficient to secure development of the project;
3. The manner in which the tender documents treat the aspect of employment of local labour resources will reflect the position that the local residents benefit to the maximum degree possible from construction related activities; and
4. The proposed undertaking will have no significant adverse effect on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be let no later than December 31, 1979, and

2. That the Ministry of Government Services submit a copy of the tender documents for the undertaking to the Environmental Approvals Branch, Ministry of the Environment, for inclusion in the Public Record.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 4th day of May, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

> The construction program associated with the renovation and alteration of the Hillcrest Detention Centre in Guelph,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue expense required to prepare an Environmental Assessment for an undertaking that will have no significant adverse effect on the environment; and
2. The Ministry of Correctional Services will be interfered with because the undertaking is urgently needed to replace the use of the Guelph Jail facilities which are functionally inadequate and undersized for current operational levels.

Having weighed such injury, damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking is needed to replace the use of the Guelph Jail facilities which are both inadequate and undersized in terms of modern standards and current operational needs;
2. The proposed undertaking involves renovation of a facility which has been operated for similar purposes for over 20 years; and
3. The proposed undertaking will have no significant adverse effect on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be let no later than December 31, 1983; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment between 30 and 100 days prior to the calling of tenders for the project, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current conditions under which the project is proposed are unchanged from the conditions that existed on the date that this exemption order was issued.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Toronto Area Transit Operating Authority, hereinafter referred to as "TATOA", a public body and Crown Agency reporting to the Minister of Transportation and Communications, that an undertaking, namely:

> The activity of completing the construction of and operating a new commuter bus storage and maintenance facility to be located on 7.5 acres of land on Steeprock Drive in Downsview.

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. TATOA will be interfered with and damaged by the undue delay and expense resulting from having to provide an environmental assessment for a project for which the need has been established and the basic planning was underway prior to the Act being proclaimed in force, and for which property has been acquired and construction commenced, and which will be substantially completed by the 1st day of January 1980; and
2. Any delay in construction would result in inconvenience and financial hardship to the contractor, his employees, to TATOA, and to the bus operators and their employees, and in the continued undue congestion of buses in the bus servicing facilities in Downtown Toronto; and

Having been advised:

1. That GO transit will lose its privileges at the TTC Sherbourne St. garage because of increasing TTC requirements at that location; and
2. That the purposes of this new TATOA facility are:
    a. to facilitate the established operational policy of TATOA to short turn Toronto-bound GO buses at or near the Metro boundary. This reduces the duplication of transit services to downtown, makes better use of existing rolling stock, relieves bus congestion in the existing downtown maintenance and storage facilities, and provides for the economical servicing of these vehicles at a location near the Metro boundary. This is done by consolidating the servicing facilities in one location that is readily and economically accessible to the short turning buses, the existing facilities being dispersed both geographically and in terms of the specific types of servicing available at each;
    b. to prepare for the impending loss of access to the TTC Sherbourne St. garage for GO transit buses; and
3. That subjecting this project to the application of the Act could delay the completion of the maintenance and storage facilities, thereby resulting in the inconvenience and hardship mentioned above; and

Having weighed such injury, damage, interference, or inconvenience with the betterment of the people of the whole or any part of Ontario by the protection, conservation, and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The planning for the Downsview Bus Maintenance and Storage Garage had commenced prior to the Act comming into force; and
2. Construction has already begun with contractual agreements having been made, equipment ordered, and personnel hired; and
3. The garage is being constructed on level terrain in an area that is zoned industrial and in which there are factories and other industrial installations in place and operating, or under construction, and the possibility of adverse environmental impacts occurring as a result of its construction is remote; and
4. The timely completion of the project without delay is recognized as being a desirable goal and is in the best interests of the Province, TATOA, the bus operators and their employees, the contractor and his employees, and the people of Metropolitan Toronto.

This order comes into force and is in effect on and after the day upon which it is signed.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

> Design, provision and construction of that portion of Highway 403 within the Parkway Belt from Highway 401 to the Queen Elizabeth Way via Oakville Link;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of the project for which a planning study was completed prior to the Act being proclaimed in force; and
2. The undertaking is located within the Parkway Belt West, and the public will be interfered with by delay in the carrying out of this highway project undertaking, the planning for which as part of the Parkway Belt West hearings, has already been publicly reviewed by interested parties; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking for which planning was completed in 1970 and which will be substantially completed by January 1, 1980, was part of the Parkway Belt West hearings, and has reached a sufficiently advanced stage that the interference with the Provincial road construction program of the Ministry of Transportation and Communications which would be caused by the application of the Act, would be undue; and
2. The protection, conservation and wise management of the environment will be sufficiently provided for by the detailed environmental planning procedures which have been carried out and the detailed contract documents which have been drafted to meet the

spirit and intent of the Act, and by the public review which took place in connection with the approval of the Parkway Belt West Plan.

This exemption is subject to the following terms and conditions:

1. The Minister of Transportation and Communications shall prepare and submit to this Ministry, environmental status statements for the design process of the undertaking for information and monitoring purposes.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The design and construction of two sections of the E.C. Row Expressway, an undertaking already having been exempted from the requirements of the Act pursuant to Section 30, but for which the following will not be substantially completed by January 1, 1980:

W.P. 259-66-01, from 0.5 miles east of Walker Road easterly 2.6 miles; and

W.P. 259-66-03, from 3.1 miles east of Walker Road easterly 2.6 miles (Highway 2),

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Ford Motor Company and its employees and suppliers will be interfered with and damaged by the violation of a commitment made by the Province of Ontario to the Ford Motor Company in August 1978, to complete the above mentioned sections of the E.C. Row Expressway to coincide with the start-up of operations in April 1981 at Ford's proposed engine plant immediately north of the Expressway; and
2. The public living in the area of the proposed plant will be interfered with and damaged by the noise, dust, headlight glare, traffic congestion and hazard resulting from vehicles using existing streets to enter and exit from the proposed plant should these sections of the Expressway and its associated interchanges not be completed prior to or coincident with the opening of the proposed plant; and

Having been advised:

1. That in order to achieve the anticipated April 1981, opening of the Expressway, and that the following schedule of activities can be adhered to:
   (i) Completion of preliminary design, March 1979;
   (ii) Completion of construction about April 1981

   it is imperative that design begin immediately; and
2. That subjecting these two sections to the application of the Act could delay the completion of the Expressway, thereby jeopardizing the commitment of the Province and resulting in delay and inconvenience to the Ford Motor Company and its employees and suppliers, and inconvenience and discomfort to the residents of the area; and
3. Of an existing environmental process applied to projects such as the E.C. Row Expressway by the Ministry of Transportaiont and Communications, and that the degree of impact on the environment from this road construction project is anticipated to be minimal; and
4. That this Ministry is in receipt of an Environmental Status Statement documenting the planning phase of this project; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. The planning for the entire E.C. Row Expressway corridor was completed, and the design, construction and operation of several sections of it were well advanced at the time the Act came into force; and
2. The protection, conservation and wise management of the environment will be sufficiently provided for by the environmental process followed by the Ministry of Transportation and Communications as part of its policy; and an Environmental Status Statement documenting the planning phase of this project has been provided; and
3. The construction of these two sections of the Expressway is unlikely to cause significant environmental impact; and
4. The timely completion of the Expressway to coincide with the opening of the engine plant is recognized as being a desirable goal and is in the best interest of the Province, the local residents, and the Ford Motor Company and its employees and suppliers.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall prepare and submit to this Ministry, an environmental status statement documenting the design and construction phase of these two sections, for information and monitoring purposes.

This order comes into force and is in effect on and after the day upon which it is signed.

BE IT ENACTED as a by-law of Ontario Pork Congress as follows:—

HEAD OFFICE

1. The Head Office of the Corporation shall be in the City of Stratford, in the Province of Ontario, and at such place therein as the directors may from time to time determine.

SEAL

2. The seal, an impression whereof is stamped in the margin hereof, shall be the corporate seal of the Corporation.

BOARD OF DIRECTORS

3. The affairs of the Corporation shall be managed by a board of five (5) or more directors, each of whom at the time of his election or within 10 days thereafter and throughout his term of office shall be a member of the Corporation. Each director shall be elected to hold office until the first annual meeting after he shall have been elected or until his successor shall have been duly elected and qualified. The whole board shall be retired at each annual meeting, but shall be eligible for re-election, if otherwise qualified. The election may be by a show of hands unless a ballot be demanded by any member. The members of the Corporation may, by resolution passed by at least two-thirds of the votes cast at a general meeting of which notice specifying the intention to pass such resolution has been given, remove any director before the expiration of his term of office, and may, by a majority of the votes cast at that meeting, elect any person in his stead for the remainder of his term.

VACANCIES, BOARD OF DIRECTORS

4. Vacancies on the board of directors, however caused, may so long as a quorum of directors remain in office, be filled by the directors from among the qualified members of the Corporation, if they shall see fit to do so, otherwise such vacancy shall be filled at the next annual meeting of the members at which the directors for the ensuing year are elected, but if there is not a quorum of directors, the remaining directors shall forthwith call a meeting of the members to fill the vacancy. If the number of directors is increased between the terms, a vacancy or vacancies, to the number of the authorized increase, shall thereby be deemed to have occurred, which may be filled in the manner above provided.

QUORUM AND MEETING, BOARD OF DIRECTORS

5. A majority of the directors shall form a quorum for the transaction of business. Except as otherwise required by law, the board of directors may hold its meetings at such place or places as it may from time to time determine. LABORATORY MEDICINE

Note: Claims for laboratory services, when referred by a Dentist, Osteopath, Chiropodist or Chiropractor are not insured services.

PREAMBLE:

1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left at a sufficient level to cover administrative costs. This benefit is not applicable to referred-in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.

2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.

3. A number of tests are listed in different sections of the schedule, i.e. when more than one method of performing the test is available, e.g. Hepatitis B antigen is listed under both Radioassays and Immunology.

4. Urine — dipstick chemical estimations are a modern and acceptable part of a routine and microscopic urine analysis (L253) or as a single part (such as Ketones, blood or protein, etc.) or in a glucose tolerance test (L254).

Note: The glucose tolerance test (G.T.T.) is not listed in this Schedule. Therefore, when requesting a laboratory to perform a glucose tolerance test, the physician should specify the number and frequency of blood sugar determinations and urinalyses desired. Ketones should not be routinely claimed with G.T.T.

5. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.

6. Code L418 may not be claimed if a haemoglobin is carried out in the course of any visit. However, Code G481 (see page 110) may be claimed if a haemoglobin screen (any method or instrument) is carried out in the course of an office or home visit (except for routine obstetrical care). (See also Preamble, part B, paragraph 2.) Urinalysis may be claimed with or without an associated visit to a physician's office if the analysis is comparable to code L253 and includes microscopic examination of the centrifuged specimen.

7. The RAST test has not been recognized in the schedule and it is inappropriate to claim for this service under code L585.

8. When a screening culture method (e.g. Agar spoon) is used on urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed.

LABORATORY MEDICINE

9. The Physician assumes responsibility for all ctyology smears and the listed professional benefits (L804 to L815 inclusive) are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.

10. Only those tests which are requested are to be claimed with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be incomplete, insufficient or meaningless to the referring physician, the medical director of a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.

11. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimation; creatine does include creatinine (as specified). Notwithstanding the foregoing and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.

12. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported.

13. Whereas the red cell count had fallen into disrepute and was rarely used before the advent of particle counters, and since they are considered valid only when counted by such an instrument, the manual red cell count done by the counting chamber is no longer approved and has been removed from the schedule.

14. Because of obsolescence and/or lack of utilization, L028 (Bence Jones Protein heat test) and L138 (Iodine, Butanol Extractable) have been removed from the schedule.

15. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit of $2.61 for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.

16. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine should be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion (i.e. a certain quantity per m.g. of creatinine) the performance of a creatinine is mandatory and may be claimed.

17. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by a serial titration, both the screening and titre fees may be claimed. If the titration is a micro technique using plates, it is the equivalent of a tube titre, the wells being miniature tubes.

18. It is recognized that when Wet Preparation (L653) has been used to search for trichomonas, it may be claimed in addition to L625 or L627 provided that the

LABORATORY MEDICINE

conditions set down in paragraph 10 of this preamble are adhered to. The wet preparation used in the faeces concentration technique for parasites and ova is included in L650.

19. It is recognized that in all laboratory tests there is a professional component.

20. If a test is not completed in accordance with the specific schedule listing, no claim should be made for the test.

21. The maximum number of units which can be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit), L399 (WBC Count) and L397 (RBC Count) is 11 units, whether automated, semi-automated or manual methods are used. L700 is not included in this total and may be claimed separately, if appropriate. Code L470 has been deleted from this schedule. Laboratories using multichannel equipment and previously claiming under Code L470 should now use individual codes as described above.

22. For codes L475 - L478 inclusive, the unit of test measurement is "per panel". The panel consists of reagent blood cells of known antigenicity usually numbering 8-10 cell types per panel. For a 16 cell panel, the L.M.S. unit value should be doubled.

23. The use of Nickersons Medium as a screening test for yeast is not a benefit.

24. This preamble is intended to apply to everyone using codes L700, L001 to L722 and L800 to L826.

25. The benefits for patient documentation and specimen collection and each test are calculated by multiplying the individual L.M.S. Unit values by .37.35¢.

26. Laboratory tests on specimens sent outside Ontario are not a benefit of the Plan.

27. The maximum number of units which can be charged for any combination of L005, L030, L045, L053, L061, L067, L111, L191, L194, L204, L208, L222, L223, L226, L251 or L252 is 40 units for tests ordered at the same time on the same patient done on a non automated basis. The maximum number of units which can be charged for any combination of the above tests done on a single sample on an automated chemical analyzer with simultaneously functioning channels is 18 units (L225). L700 is not included in these totals and should be billed separately, if appropriate.

d. Australia,

e. New Zealand,

f. the Republic of South Africa, or

g. the United States of America,

after successful completion of the curriculum of an accredited medical school in one of the aforementioned countries based upon successful completion of at least twenty months of undergraduate medical training actually given by and at an accredited medical school in one of the aforementioned countries, or

(ii) a degree in medicine from a medical school listed by the World Health Organization situated in a country other than a country mentioned in subclause i, and,

a. an Interim or Standard Certificate from the Educational Commission for Foreign Medical Graduates, or

b. successful completion of an evaluating examination acceptable to the College;

(2) Subsection 2 of the said section 14, as remade by subsection 2 of section 1 of Ontario Regulation 13/77, is revoked and the following substituted therefor:

(2) It is a requirement for the issuing of a General licence to an applicant who complies with the provisions of subclause i of clause *b* of subsection 1 that he submit evidence that is acceptable in form and content to the College that he has completed an internship or residency program with performance satisfactory to the College comprising a period of,

(*a*) one continuous year of rotating internship or residency which shall include a minimum of six weeks in each of medicine, surgery, obstetrics and gynaecology, paediatrics and psychiatry; or

(*b*) one continuous year of mixed internship or residency in which a minimum of forty weeks is divided between two or more of medicine, surgery, obstetrics and gynaecology, paediatrics and family medicine; or

(*c*) subject to subsection 3, one continuous year of straight internship or residency provided that he has completed an undergraduate clinical clerkship acceptable to the Council of not less than forty weeks' duration, exclusive of vacation time, and including clerkships regularly scheduled for all students and those chosen as electives and the clerkship shall be taken in the second half of the undergraduate medical curriculum and shall, except for non-clinical periods, include the following minimum periods:

The Ontario Highway Transport Board Act

POLICY STATEMENTS

Item: Admissibility as evidence of photocopies and microfilm prints.

Objective: To formulate policy with respect to evidential matters.

Comment: The Board recognizes that, insofar as business records are concerned, there is increasing use being made of photocopies and microfilm of such record.

To date, the Board insisted on original documents being filed at hearings for evidential purposes but will now accept photocopies and microfilm prints of business records in lieu of the originals.

However, the Board must be satisfied as to their authenticity in accordance with Section 15 (4) of *The Statutory Powers Procedure Act of Ontario* and will continue to require that parties prove to its satisfaction that copies, are, in fact, true copies of the originals.

Effective Date: May 14, 1979.

B. B. ALEXANDER,
Chairman.

Item: Posting of Telegram Authorities.

Statement: In future, a file will be maintained at the Board's offices for public reference, of all telegram authorities which are active at a given date.

Effective Date: April 30, 1979.

B. B. ALEXANDER,
Chairman.

Item: Adjournments.

Statement: The Board will not consider any requests for adjournment unless filed three clear business days prior to the date of the hearing except in unavoidable circumstances.

Upon the granting of an adjournment the applicant will be required, as in the past, to immediately advise all respondents.

Effective Date: February 1st, 1979.

B. B. ALEXANDER,
Chairman.

POLICY PROPOSAL

Item: *Expanded Use of Section 8 Proceedings.*

Objective: A major objective of the Board's review of its procedures is to reduce the number of hearings required to affect Board decisions. Another objective is to use the time of its Members and staff more efficiently.

Comment: Section 8 of Regulation 632 under *The Ontario Highway Transport Board Act* provides that if a notice is placed in The Ontario Gazette and no opposition to that application is received within fifteen days of the date it is published, the Board may dispose of the matter summarily.

The Board has for many years advertised particular types of applications under Section 8, and disposed of many matters in Chambers. In the calendar year 1977 for instance, the Board made 2,132 decisions in Chambers and made some 2,549 decisions after public hearings. In 1978 2,053 matters were decided in Chambers, 2,565 after public hearing.

The procedure has generally been utilized in situations where it appeared to the Board that the application would not generate opposition and where there was no apparent reason such as fitness of the applicant, to hold a public hearing. Examples of matters which are currently disposed of under Section 8 are:

—P.V. School Bus applications.

—Certain applications for transfer.

—Applications for reinstatement of operating licences up to September 30th, in the year of expiry.

—In transit moves.

—Class X applications to extend the time for filing complementary authority.

—Other miscellaneous matters of a normally "routine" nature.

Many applications for which hearings are now held are unopposed. Appendix A outlines the Board's experience in this regard in 1978.

Proposed Statement:

The Board proposes to expand its use of the procedure in the future on a trial basis. Use of Section 8 advertising where the Board is content with the form and clarity of the language describing the service applied for, will allow many matters to be disposed of in this manner.

The Minister has indicated that he will be amending the regulation to expand the fifteen day requirement for opposition under Section 8 to twenty-two days. It is felt this will provide fair and ample opportunity to all those who may wish to respond to a Section 8 notice, regardless of their location.

Under this proposal, use of Section 8 would be considered for applications which are:

(a) from licensed carriers; and

(b) for Class D, E, F, FS or T, or a named shipper Class X.

This program would require a more active role being taken by the Board in screening applications prior to publication. The Board would concern itself to a greater degree in ensuring that the language and form of the proposed service he as clear and concise as might be reasonably expected. The Board would invite any applicant to discuss proposed wording with the Board prior to filing. Regardless of any such pre-filing discussion, the Board's procedure for dealing with applications of the types noted above would be as follows:

1. Screen each application for clarity, form conciseness and enforceability.

2. If the description of the proposed service is questioned, Board would request clarification or rewording from the applicant or his counsel, by telephone or by letter.

3. If the wording were not clarified within a reasonable time, the application would be considered abandoned.

4. When the Board was satisfied with the wording, notice would be placed in The Ontario Gazette, pursuant to Section 8.

5. The applicant could be requested to select alternative hearing dates should the circumstances require a public hearing.

6. If opposition was received a hearing would be scheduled upon discussion notice to the parties *without further advertisement*. This would represent a significant time saving departure from the current procedure which involves a further notice being placed in The Ontario Gazette.

It should be noted that Section 8 advertising would not guarantee disposition without a hearing or a grant of the authority applied for.

7. If no opposition was received within 22 days and supporting evidence has not yet been filed, the Board would request from the applicant or his solicitor sworn statements from shippers attesting to the need and convenience of the service.

If within a reasonable time such statements were not forthcoming or the evidence submitted did not, in the Board's view attest to public necessity and convenience the Board would set the matter down for a public hearing.

8. If satisfactory material is received, the Board would grant the application summarily and advise the applicant as a matter of course.

This procedure is proposed as a trial which could be expanded in future based upon experience and reaction to it. The discretion to proceed under Section 8 would rest entirely on the Board.

Future Action: The public's comments are invited on this proposal. For this purpose a public meeting will be held at the Board's office, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, (Hearing Room 1) on Thursday, the 14th day of June, 1979 at 3.00 p.m.

The Environmental Assessment Act, 1975

MOE-14

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of Environment that an undertaking, namely:

> The activity of constructing and operating the Township of Ignace Provincial Sewer and Water Extensions, Project #1-0060 and #5-0137, designed to collect and transmit sewage, and to transmit and distribute potable water, and consisting of a sanitary sewer collection system approximately 790 metres along Davy Lake Road starting from Pine Street to Balsam Avenue and watermains approximately 2000 metres along Davy Lake Road and Highway 17 East starting from Willow Lake;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by delaying the sanitary sewer collection, and watermain service for Ignace that are already designed and for which there is precommitted funding from the Ministry of Northern Affairs;
2. The public will be interfered with by delaying the construction of facilities upon which the property owners of Ignace are depending;

Having weighed such injury, damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force for such projects and had reached a sufficiently advanced stage that the interference with the proponents which would be caused by the application of the Act would be undue;
2. The water portion of the undertaking is part of the project that was granted preliminary approval on March 8, 1973 and subsequent approvals were granted under Section 41 of The O.W.R. Act on September 25, 1974 for the watermain and under Section 42 of The O.W.R. Act on January 20, 1976 for the sanitary sewer;
3. Funding has been approved by the Ministry of Northern Affairs for the construction of the undertaking; and
4. The undertaking will be located within existing road allowances and therefore the impact upon the environment will be minimal.

This exemption is subject to the same terms and conditions as in Exempting Order MOE 5/2.

This Order comes into force and has effect on and after the day upon which it is signed.

Dated at Toronto this 14th day of May, 1979.

HARRY C. PARROTT D.D.S.
Minister of the Environment.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

THE CORPORATION OF THE TOWNSHIP OF THESSALON, DISTRICT OF ALGOMA

By Virtue Of A Warrant issued by the Reeve under the seal of the Corporation of the Township of Thessalon having a date of the 5th day of February, 1979, to me directed, commanding me to levy upon the lands mentioned in the following list for arrears of taxes thereon, together with all costs incurred, I hereby give notice that unless such arrears of taxes are sooner paid, I shall proceed to sell the said lands at the Township of Thessalon Office, on Tuesday, the 4th day of September, 1979, at the hour of 10.00 o'clock in the morning in accordance with *The Municipal Act,* R.S.O. 1970, Chapter 284, Section 568, and amendments thereto.

Notice Is Hereby Given that the list of lands for sale for arrears of taxes will be published in The Ontario Gazette on the 2nd day of June, 1979 and copies may be had at my office.

An adjourned sale if necessary will be held on Tuesday, the 11th day of September, 1979, at the same place and hour when the Corporation may purchase any of the lands remaining unsold.

In the event that a survey plan or surveyor's services is required to provide a proper description for registration and to give title to any of the above properties it shall be at the expense of the purchaser.

Dated at Treasurer's Office, this 3rd day of May, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having been informed that three exemption orders, OHE-5, OHG-7 and OHL-12 published in THE ONTARIO GAZETTE on November 13, 1976, which were granted to Ontario Hydro under Section 30 of the Act, are about to expire and having received an environmental assessment with respect to the undertaking exempted by such orders which environmental assessment is presently being reviewed pursuant to the Act and whereas the exemption for the undertaking, namely:

> The program of planning, designing, construction, operating and maintaining:
>
> (a) existing transmission lines and transformer stations or switching stations which involve changes of rights-of-way, replacement of poles or towers or extensions to existing sites, in order to upgrade, expand or rehabilitate them;
>
> (b) minor new transmission lines, transformer stations and switching station projects defined as:
>
> 1. New transmission lines 2 - 8 kilometers in route length which are capable of operating at a nominal voltage of at least 230 kilovolts,
> 2. New transmission lines more than 2 kilometers in route length which are capable of operating at a nominal voltage of 115 kilovolts, or
> 3. New transformer and switching station projects which are capable of operating at a nominal voltage of not more than 230 kilovolts; and
>
> (c) communications towers,

under the orders will expire on April 1, 1979, and

Having been advised that if the undertaking is made subject to the application of the Act while the environmental assessment is being processed, the following injury, damage or interference with the person indicated will occur:

1. The public will be interfered with by the delay of facilities which are required to maintain an adequate power supply; and
2. Ontario Hydro will be interfered with and damaged by the undue delay of projects that are often urgent and primarily of a minor nature; and

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. Ontario Hydro will carry out individual environmental assessment procedures for projects within the undertaking which are liable to have such significant effects that an individual environmental assessment would be carried out as proposed in the program environmental assessment being reviewed; and
2. Satisfactory progress has been made towards the approval of the program environmental assessment covering this undertaking, since Ontario Hydro met the requirement of submitting a program environmental assessment prior to April 1, 1978; and
3. The approval of the program environmental assessment has been delayed by the suspension of its review, in order to resolve deficiencies in the environmental assessment that were identified by the Government reviewers; and
4. The additional information submitted by Ontario Hydro as a response to the deficiencies identified by the Government reviewers is now under review, but an approval will not be able to be given by April 1, 1979; and

5. The betterment of people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment is being sufficiently fulfilled by the processing of the program environmental assessment; and

6. It is therefore in the public interest to extend the exemption of the undertaking.

This exemption is subject to the following terms and conditions:

1. That the program of planning, designing, construction, operating and maintaining the projects within this undertaking that are in these stages on or after April 1, 1979, shall be carried out in accordance with the process and procedures described in the program environmental assessment that is currently under review, with the exception of those projects for which an environmental statement has been drafted. These projects will be completed in accordance with the requirements of the exemption order under which they were commenced and a list of such projects will be prepared and forwarded to the Ministry of the Environment by June 1, 1979.

2. Where work which would otherwise be part of the undertaking exempted hereunder is being carried out and an approval to proceed under the Act has been obtained for an undertaking which includes such work, the work shall not be part of the undertaking exempted hereunder but shall be carried out in accordance with such approval;

3. This exemption shall terminate on the earlier of the date on which approval to proceed with the undertaking is received under the Act or April 1, 1980.

This order comes into force and has effect on and after April 1, 1979.

Dated at Toronto, this 15th day of May, 1979.

HARRY PARROTT, D.D.S.,
Minister of the Environment.

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown, the Villages of Erieau and Erie Beach plus portions of the Townships of Raleigh and Harwich and their residents will be interfered with and damaged by the undue delay and expense required to prepare an environmental assessment on a project designed to alleviate chronic water quality and quantity problems for these communities as well as to ensure system security; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force for such projects and had reached a sufficiently advanced stage that the interference with the proponent which would be caused by the application of the Act would be undue.
3. The undertaking was only omitted from Exemption Order MOE 5/2 by inadvertence.
3. All of the trunk watermain from the Hwy. 3 to Erieau will be located within the existing road allowance, therefore, the environmental effects will be minimal.
4. A public hearing was held in 1971 by the Ontario Water Resources Commission under Section 61 of The Ontario Water Resources Act for the purpose of presenting the concept of developing a Public Water Service Area for several communities at which time the need was detailed and all the Councils involved plus affected individuals were invited to comment in favour of or against the proposal. The public hearing resulted in the Commission making an order adopting the proposal which was then approved by the responsible Minister.

This exemption is subject to the following terms and conditions:

1. No works shall be constructed under this Order except to supply water only to the municipalities as provided for in the order of the Ontario Water Resources Commission dated the 27th day of August 1970 as it may be amended and supplemented from time to time pursuant to Section 61 of The Ontario Water Resources Act;
2. The Environmental Assessment Section of the Environmental Approvals Branch be involved at all stages of the planning of any contract that could have environmental implications;
3. The construction of works be carried out in accordance with "Environmental Considerations for the Planning and Construction of Provincial Sewer and Water Projects" as set out by the Environmental Assessment Section.

This order comes into force and has effect on and after the day upon which it is signed.

Dated at Toronto this 1st day of June, 1979.

HARRY C. PARROT, D.D.S.,
Minister of the Environment

GENERAL

1. In these rules,

(*a*) "clerk" means the clerk of the Court;

(*b*) "file" means file in the office of the clerk;

4. These rules shall be construed liberally so as to secure an inexpensive and expeditious conclusion of every proceeding consistent with a just determination of the proceeding. O. Reg. 387/79, r. 4.

5. In any matter not provided for by these rules, the practice of the Court shall be regulated by analogy to these rules and to the Act governing the proceeding and a motion may be made to the Court for directions. O. Reg. 387/79, r. 5.

6. Where a party fails to comply with these rules, the Court, upon such terms as the Court considers proper, may grant such relief from the noncompliance as the Court considers necessary to secure the just determination of the matter in dispute. O. Reg. 387/79, r. 6.

7. Where these rules or an order of the Court prescribes a period of time for the taking of a step in a proceeding, the time shall be counted by excluding the first day and including the last day of the period, and where the last day of the period falls on a Saturday or a holiday, the period shall be deemed to end on the day next following that is not a Saturday or a holiday. O. Reg. 387/79, r. 7.

8. The Court, at any time, may lengthen or shorten a period of time prescribed by these rules or by an order of the Court, upon such terms as the Court considers proper in the circumstances. O. Reg. 387/79, r. 8.

9. The Court may order that any person whose presence as a party is necessary to determine the matters in issue shall be added as a party. O. Reg. 387/79, r. 9.

10.—(1) A proceeding shall be commenced by filing an application in the prescribed form.

(*b*) subject to subsection 3, "population" means the population as shown by the municipal census taken in the year preceding the year for which an estimate of net expenditures is made.

(2) For the purpose of subsection 6 of section 8 of the Act, where a society has jurisdiction in more than one municipality, the portion of the estimate of net expenditures that is referable to each municipality shall,

(*a*) in respect of the cost of services for each child in care, be in the proportion that the number of children taken into protective care in the municipality bears to the total number of children in care;

(*c*) where by arrangement with a municipality the standard of services provided to the municipality exceeds that provided to any other municipality in the jurisdiction of the society, include the entire cost of the excess.

(3) For the purpose of subsection 2, the population of territory without municipal organization in an area in the jurisdiction of a society shall be computed in the same ratio to the total population of the municipalities in the area as determined by the municipal census referred to in subsection 1 as the population of the territory as determined by the latest census of the population taken under the *Statistics Act* (Canada) but does not include "Indian" as defined for the purpose of section 12 of this Regulation, bears to the total population of the municipalities in the area as determined by the same census.

(4) For the purpose of subsection 2, the number of children in the care of a society during the year shall be computed as the average for the year of the number of children in the care of the society on the last day of each month in the year. O. Reg. 388/79, s. 8.

9.—(1) For the purpose of subsection 1 of section 13 of the Act, the amount of the approved estimate of a society that shall be paid to the society by Ontario shall be equal to,

(*a*) 80 per cent of the part of the approved estimate referable to any municipality within the jurisdiction of the society; and

(*b*) 100 per cent of the part of the approved estimate of the society referable to territory without municipal organization.

(2) For the purpose of clause *b* of subsection 1, the part of the approved estimate of a society referable to territory without municipal organization shall be determined under subsections 2 and 3 of section 8, as if the territory without municipal organization were a municipality.

(3) For the purpose of subsection 2 of section 13 of the Act an amount equal to 20 per cent of the amount of the portion determined under section 8 of the approved estimate of a society that is referable to a municipality shall be paid to the society by the municipality. O. Reg. 388/79, s. 9.

10.—(1) Subject to subsections 2 and 5, an adjustment may be made between the approved estimate for any year and, when so determined, the actual costs of the society for that year other than the costs for which amounts are payable under section 14 of the Act, and where approved by the Minister and by each municipality in the area in which the society has jurisdiction, the amount of the adjustment shall either be paid to the society by Ontario and by each municipality in the area in which the society has jurisdiction or refunded by the society to Ontario and to the municipality, as the case may be, in the proportion to the respective financial obligations of Ontario and the municipality to the society in that year for such actual costs.

(2) The Minister, instead of approving the amount of the adjustment under subsection 1, may vary the amount of the adjustment and approve the amount as so varied, and thereafter subject to subsections 8 and 9, Ontario and each municipality in the area in which the society has jurisdiction shall pay to or have refunded by the society, as the case may be, their respective portions of the amount as so varied.

(3) After the estimate of net expenditures of a society has been finally approved by the Minister under section 9 or subsection 10 of section 12 of the Act, the society may at any time during the balance of the year, file with the Director and with each municipality in the area in which the society has jurisdiction,

(*a*) an amendment to the approved estimate; or

(*b*) a supplementary estimate,

of net expenditures of the society for the year, not included in the original approved estimate, and, subject to subsection 5, the municipality shall grant its approval to the amendment or supplementary estimate, as the case may be, within sixty days after the receipt thereof.

(4) Each municipality in the area in which the society has jurisdiction that has not granted its approval to the amount of the adjustment made under subsection 1 or the amendment or supplementary estimate filed under subsection 3, or referred the amount of the adjustment, amendment or supplementary estimate, as the case may be, to a child welfare review committee within sixty days after receiving notice thereof from the society shall at the expiration of that period be deemed to have granted its approval to the amount of the estimate.

(5) Where the council of any municipality in the area in which the society has jurisdiction does not agree with the amount of,

(*a*) the adjustment made under subsection 1;

(*b*) the amendment to the approved estimate filed under subsection 3; or

(*c*) the supplementary estimate filed under subsection 3,

it may, before the Minister's refusal or approval is given, instead of approving the adjustment, amendment or supplementary estimate, as the case may be, and before the expiration of the sixty day period referred to in subsection 4 refer the matter to a child welfare review committee and thereafter the provisions of sections 11 and 12 of the Act apply with necessary modification to a request for review made under this subsection.

(6) Where the municipality and the Minister approve the amount of the amendment to the approved estimate or the amount of the supplementary estimate submitted under subsection 3, the amount shall be deemed to be part of the approved estimate of the society for that year for the purpose of determining the amounts payable to the society under section 13 of the Act and section 9.

(7) After the amendment to the approved estimate or the amount of the supplementary estimate has been filed with the Director under subsection 3 and approved by the council of each municipality, the Minister may approve the amendment or the supplementary estimate or the Minister may, subject to subsection 8, vary the amount of the amendment or the supplementary estimate and approve the amount as so varied.

(8) Where the Minister intends,

(*a*) to refuse to approve the payment of an adjustment made under subsection 1 or the amount of the amendment to the approved estimate or the amount of a supplementary estimate filed under subsection 3; or

(*b*) to vary the amount of the adjustment under subsection 1 or the amount of the amendment to the approved estimate or the amount of a supplementary estimate filed under subsection 3, and approve any such amount as so varied,

the Minister shall, at least thirty days prior to the refusal or approval, as the case may be, give notice of the Minister's intention to the society and to the council of each municipality in the area in which the society has jurisdiction.

(9) Where a society or the council of any municipality in the area in which the society has jurisdiction does not agree with the Minister's intention,

(*a*) to refuse to approve the payment of an adjustment made under subsection 1 or the amount of an amendment to the approved estimate or the amount of the society's supplementary estimate filed under subsection 3; or

(*b*) to vary the amount of the adjustment or the amount of the amendment to the approved estimate or the amount of the supplementary estimate,

any one of them may, before the Minister's refusal or approval is given, as the case may be, request the Minister to refer the matter to a child welfare review committee and thereafter the provisions of sections 11 and 12 of the Act apply with necessary modifications to a request for review made under this subsection.

(10) Where the District Child Welfare Budget Board has been established for a district under section 10 of the Act for the purpose of approving the estimate of net expenditures of a society, any approval or request for review by or notice to a municipality in the district in respect of the estimate, required or authorized, as the case may be, by this section may be given by the Board. O. Reg. 388/79, s. 10.

11.—(1) Notwithstanding sections 9, 10 and 12, the costs determined in accordance with the approved estimate, of care and services provided by a society for any child,

(*c*) who is approved by a Director,

shall be excluded for the purpose of computing any payment under section 9, 10 or 12 or subsection 2, and Ontario shall pay to the society an amount equal to 100 per cent of the cost of such care and services.

(2) Notwithstanding sections 9, 10 and 12, the costs of a society determined in accordance with the approved estimate of any demonstration project that is

approved by the Minister shall be excluded for the purpose of computing any payment under section 9, 10 or 12 or subsection 1, and Ontario shall pay 100 per cent of the cost of such demonstration project. O. Reg. 388/79, s. 11.

12.—(1) Subject to subsection 2, for the purpose of this section "Indian" means a person who,

(*a*) is registered as an Indian or is entitled to be registered as an Indian under the *Indian Act* (Canada) and is resident in Ontario on an Indian reserve, on Crown land or in territory without municipal organization; or

(*b*) is designated as an Indian with reserve status by the Minister of Indian Affairs and Northern Development of the Government of Canada.

(2) Where an Indian commences to reside in a municipality in Ontario, he shall continue to be deemed an Indian for the purposes of this section until he has resided in the municipality for a period of twelve consecutive months and thereafter he shall cease to be deemed an Indian for the purposes of this section until he resumes residence in Ontario on an Indian reserve, on Crown land or in territory without municipal organization.

INFORMATION STATEMENT

SUMMARY DESCRIPTION OF COMMODITY FUTURES TRADING

When you trade in commodity futures contracts you are entering contracts to make or take delivery of a specified quantity and quality, grade or size of a commodity during a designated future month at a price agreed upon when the contract is entered into on your behalf on a commodity futures exchange.

Each commodity exchange requires its members to obtain mandatory minimum margin from customers for whom the exchange members act. "Initial margin" is the original deposit required, the earnest money when the contract is entered into. If the market price moves against the customer's position causing the margin on deposit to fall to or under a prescribed level called "maintenance margin" he will be required to furnish additional funds to restore margin on deposit to initial margin. Margin is calculated at the end of each day and more frequently during active markets. When additional margin is required it must be furnished immediately.

Commodity futures exchanges also impose maximum daily permissible price changes in each commodity—"daily price limits"—certain amounts above or below the previous day's closing price beyond which limits no trades may be effected.

The reason for such limits is to prevent sudden extreme price movements. However, the result can be days elapsing before a trading level is found. The loss to a trader on the wrong side of the market and seeking to offset his contract can be substantial.

Only a very small proportion of commodity futures contracts are, in fact, settled through actual delivery of the commodity. Instead, they are usually settled by entering an opposite or offsetting contract. To settle a contract in which a certain amount of a particular commodity for a given delivery month was bought, the buyer subsequently contracts to sell a like amount of that commodity for the same delivery month. To settle a contract in which a commodity was sold, the seller buys an equal amount. Any difference between the price at the time the original contract was made and the price at the time the liquidating or offsetting contract is entered into is settled in cash.

RISK

The risk of loss in commodity futures trading is substantial. You should therefore carefully consider whether such trading is suitable for you in light of your financial condition, objectives, and temperament. In considering whether to trade, you should be aware of the following:

(1) You may sustain a total loss of the initial margin funds and any additional funds that you deposit with you broker to establish or maintain a position in the commodity futures market. If the market moves against your position, you may be called upon by your broker to deposit a substantial amount of additional margin funds, on short notice, in order to maintain your position. If you do not provide the required funds within the prescribed time, your position may be liquidated at a loss, and you will be liable for any resulting deficit in your account.

(2) Under certain market conditions, you may find it difficult or impossible to liquidate a position. This can occur, for example, when the market makes a "limit move".

(3) Placing contingent orders, such as "stop-loss" or "stop-limit" order, will not necessarily limit your losses to the intended amounts, since market conditions may make it impossible to execute such orders.

(4) A "spread" position may not be less risky than a simple "long" or "short" position.

(5) The high degree of leverage that is often obtainable in futures trading because of the small margin requirements can work against you as well as for you. The use of leverage can lead to large losses as well as gains.

(6) As most transactions are made in foreign currencies the risk you assume includes those related to currency fluctuations.

This brief statement cannot, of course, disclose all the risks and other significant aspects of the commodity markets. You should therefore carefully study and become familiar with all aspects of commodity futures trading, including the terms and conditions of contracts.

SUMMARY DISCLOSURE STATEMENT
EXCHANGE TRADED COMMODITY FUTURES OPTIONS

Every summary disclosure statement relating to exchange traded commodity futures options shall include:

(1) The following boldface statements in substantially the following form in ten point type on the first page:

Before you trade in commodity futures options, you should carefully read this statement. This is important because of the particular risks involved.

If you plan to buy an option, you should realize that you will pay both a premium and a commission. The premium compensates the seller, or writer, of the option for the risk he assumes; the commission compensates the broker who handles the transaction for you. Accordingly, if you are to avoid a loss the price of the commodity must — before the end of the option period — rise sufficiently that the consequent increase in the price of the underlying futures contract will absorb both the premium and the commission.

If you plan to sell (i.e., write) an option, you will be obligated to provide a futures contract to cover the option should the purchaser of the option exercise. If you write an option and do not own the underlying futures contract, there is no limit on your possible loss, which is determined entirely by the amount of the rise in the price of the commodity and the underlying futures contract.

NO SECURITIES COMMISSION OR SIMILAR AUTHORITY IN CANADA HAS IN ANY WAY PASSED UPON THE MERITS OF THE COMMODITY FUTURES OPTIONS DESCRIBED HEREIN AND ANY REPRESENTATION TO THE CONTRARY IS AN OFFENCE.

(2) A statement to the effect that:

(i) Specific market movements of the commodity futures contracts underlying the commodity futures options cannot be accurately predicted,

(ii) The writer of a call option who does not own the commodity futures contract required to be delivered upon exercise of the option is subject to risk of loss should the price of the underlying commodity futures contract increase by an amount in excess of the premium, less transaction costs,

(iii) The writer of a call option who owns the commodity futures contract underlying the option is subject to the full risk of his underlying position; in exchange for the premium, so long as he remains obligated under the option contract, he has given up an opportunity for gain resulting from an increase in the price of the underlying commodity futures contract above the price at which the option may be exercised,

(iv) The writer of a put option is subject to risk of loss should the price of the underlying commodity futures contract decrease by an amount in excess of the premium, less transaction costs;

(3) A description of the commodity futures options being offered including:

(i) The nature and type of the options and the manner in which they are traded,

(ii) The commodity futures contracts underlying the options.

(iii) The total quantity and quality of the commodities which are the subject of the underlying commodity futures contract,

(iv) The duration of the option,

(v) A general description of the elements which may comprise the purchase price to be charged including the premium commissions, costs, fees and other charges as well as the method by which the premium is established,

(vi) The services to be provided for the separate elements comprising the purchase price,

(vii) A general description of any and all costs in addition to the purchase price which may be incurred by an option holder if the commodity futures option is exercised, including, but not limited to commissions (whether denominated as sales commissions or otherwise), and all similar fees and charges which may be incurred,

(viii) The procedural requirements for exercise of the option being offered,

(ix) A clear explanation of any force majeure clause contained in the option, and

(x) A general description of any material risks involved in the option transactions not included in the statements required by item 2.

(4) A general description of the commodity futures exchange on which the options are traded, including the operation of the clearing mechanism and an explanation of any exchange or clearing house guarantees; and

(5) If the commodity futures option is incapable of being liquidated by an offsetting transaction on or subject to the rules of the commodity futures exchange on which it is traded, a statement to the effect that,

(i) the price of the commodity futures contract underlying the option must either rise above or fall below (as the case may be) the striking price by an amount in excess of the sum of the premium and all other costs incurred in entering into and exercising the commodity futures option in order for the option customer to realize a profit on the option transaction, and

(ii) an option customer will be unable to sell any option purchased in any market to recover any of the purchse price, but rather may only liquidate by exercising an option before the expiration date of the option.

(6) A clear explanation of the effect of any foreign currency fluctuations with respect to the commodity options being offered.

(7) A form of acknowledgement in substantially the following form:
